APRIL 2004

Contract DTMA91-95-C-00024

Work Order: WO-0814

March 28, 2004

STATEMENT OF WORK READY RESERVE FORCE LOGISTICS SUPPORT

GENERAL

This work order requires the contractor to perform various defined logistic tasks in support of the Ready Reserve Force (RRF). All work shall be carried out as required by MAR-614 Contract Technical Directives (CTD) issued by the Contracting Officer's Technical Representatives (COTR).

TASK DESCRIPTION

The contractor shall perform or assist MARAD in performing a broad range of logistic support services supporting the RRF; which may include, but is not limited to the following:

Logistic pre-surveys to include ship surveys prior to inventories, validations, or logistics upgrades

Physically inspect the vessel, locate and inspect storeroom(s)

Survey quantities of bulkhead-mounted spares

Identify any special inventory requirements and procedures, including recommendations for VIDMAR cabinets

Plan special inventory and validation aid requirements

Award/Contract	Document No. TO040000814	Document Title W.O. 814 RRF Logistics Support	Page 6 of Error! Bookmark not defined.
-----------------------	------------------------------------	---	--

Prepare resource estimates

Conduct shipboard inventories, validations, and logistics upgrades for specific ships

Preparation

Prepare data for inventory and validation, editing nomenclature, location, and other data to conform with standard data practices and requirements

Prepare validation and inventory aids for parts and equipment

Conduct the physical inventory and equipment validation. During the inventory, if specifically tasked by MAR-614, bring storage spaces up to standards, including, but not limited to, renumbering and repair of spare parts boxes, repair of broken hinges and hasps, paint spare parts boxes as necessary, and labeling of storage locations e.g. cabinets and boxes.

Perform post-inventory actions

Enter equipment additions, assign equipment numbers, QA data entry and equipment data for uniformity and accuracy

Affix specified bar-coded labels to parts and equipment

Obtain and install metal tags for bulkhead-mounted spares and suitable durable barcode tags for special purpose outfitting material (OPDS, MCDS, etc.) and installed ship equipment.

Obtain and install Teflon metal bar-code tags for all equipment identified under each equipment number.

Award/Contract	Document No. TO040000814	Document Title W.O. 814 RRF Logistics Support	Page 7 of Error! Bookmark not defined.
-----------------------	------------------------------------	---	--

Enter technical manuals, drawings, and controlled material data, QA and review data, assign Equipment Group Codes to technical manuals, and prepare all databases for MLSS load or PC-SAL installation

Load MLSS with inventory data

Maintain and update the Master Equipment Index (MEI) in response to data obtained from equipment additions

Reproduce and translate or arrange for translation of technical manual and/or drawings as required.

Identify translation requirements

Solicit translation services vendors as necessary to perform translation

QA translated materials and integrate with existing data in MLSS and/or PC-SAL databases

Perform PC-SAL preparation, installation, and maintenance support to include the following:

Download databases from RRF-MLSS to prepare PC-SAL, review data for anomalies, and convert databases to PC-SAL format. Build indexes and index arrays for key word searches.

Refresh existing PC-SALs to purify and purge transactions, update MARAD equipment numbers, review criticality codes and system application codes, add provisioning data, and incorporate MLSS data.

Prepare the installation package, including disks, user handbook, mailers, and other materials as required

Award/Contract	Document No. TO040000814	Document Title W.O. 814 RRF Logistics Support	Page 8 of Error! Bookmark not defined.
-----------------------	------------------------------------	---	--

Install PC-SAL software and associated support materials (disks, user handbook, mailers) aboard ship

Provide PC-SAL and MLSS training to ship crew Ship Managers, MARAD Region personnel, and others in support of installation and as requested by MAR-614

Provide additional disks, mailers, user handbooks and other materials to ships as required during PC-SAL operations

Provide PC-SAL technical support to MAR-614, Region personnel, and shipboard personnel by telephone or other means when requested

Provide support for Logistic Management Reviews (LMRs) to include preparation of aids and reports, and performance of sampling inventories of parts, controlled material, and technical documentation.

Provide support for turnover inventories to include preparation of aids and reports as specified in paragraph 3.2, and inventory assistance as requested by MAR-614.

Provide support for ship activations, deactivations, and new acquisitions to include:

For activations:

Installation support for PC-SAL when required

Controlled material breakout assistance

Provide material for special programs such as OPDS, MCDS, and CBRD.

Assist with locating parts and documentation, maintaining inventory control,

-----------------------	------------------------------------	---	--

and preparing reports

Provide a ship rider to assist with supply management functions when requested by MAR-614

For deactivations:

Inventory and stow controlled material

Upload PC-SAL data for incorporation into RRF-MLSS

Secure cabinets, storage boxes and storerooms

Provide support for new vessel acquisitions as directed by MAR-614.

Provide support for Special Inventories to include inventory and stowage of parts or other material, and inventories for a special purpose, such as to re-establish inventory validity.

Provide general logistics training and Supply Assist Visits for storeroom organization, software and hardware installations, training, policy and procedure review and other logistic functions. This support may be provided to MAR-614, Ship Manager offices, Region offices, warehouses and facilities, ships, and other contractors as requested by MAR-614.

Provide management and logistic support, parts, outfitting, and other material requirements for special programs such as the Offshore Petroleum Discharge System (OPDS), Modular Cargo Delivery Station (MCDS), and Chemical, Biological, Radiological Defense (CBRD) programs.

Prepare and maintain logistics documentation as required. Documents include (but are not limited to) the following:

Revisions to the RRF Logistics Management Manual and Reserve Fleet Operating

-----------------------	------------------------------------	---	---

Manual

A Handbook for management of Shore-based Spares

Prepare special reports when requested by MAR-614.

Respond to MAR-614 requirements for efforts involving RRF logistics support that do not fall under any other single element listed in this work order.

The contractor will acquire computer software or hardware, attend meetings and perform travel as required for the performance of this task and as directed by MAR-614.

DELIVERABLES

Upon Completion of work defined in a Contract Technical Directive, the Action Completed section of the form shall be completed and returned to the COTR.

For turnover inventories (paragraph 2.7), prepare controlled material listing, technical manual listing, drawing listing, and spare parts inventory sampling listings for shipboard critical equipment.

Prepare weekly reports of actions accomplished during the period and submit to MAR-614.

Prepare and provide support for periodic Military Sealift Command (MSC) briefings, RRF/TRANSCOM briefings, and other briefings, meetings, and conferences based on information to be provided by MAR-614.

Prepare a monthly performance review summary for quarterly reviews of the Contractor's performance.

Other deliverables shall be as specified in the contract Technical Directive.
